

Sarcophagus of Tony Stark

NAME OF ARTWORK

The name of my artwork is Ironkhamun.

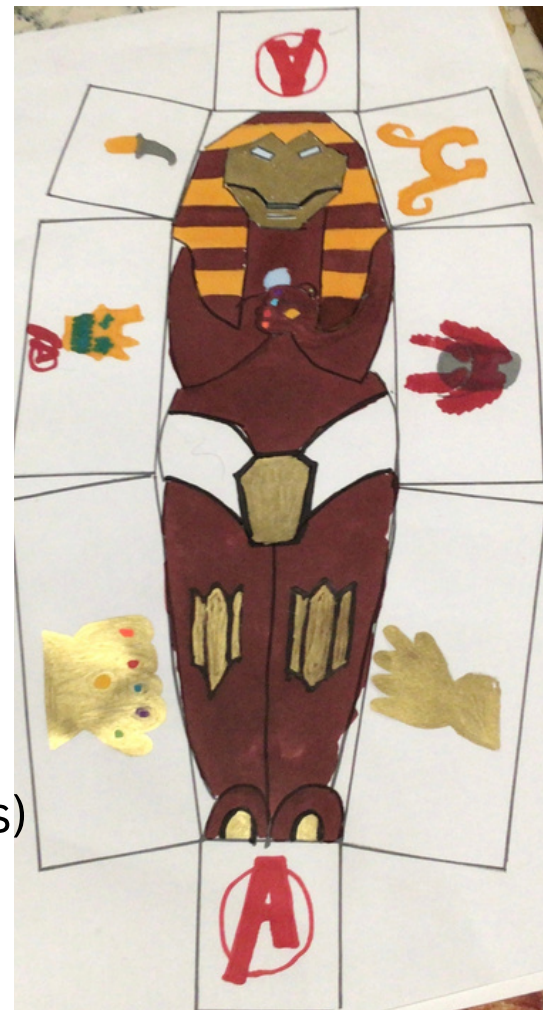

INSPIRATION

My inspiration is Tutankhamun's sarcophagus from Ancient Egypt and the movie Avengers: Endgame.

TOOLS AND MATERIALS

The tools and materials I used included:

- timber
- clay
- paper, wire and tape (under the clay)
- pipe cleaners, wool, peg and material (for the mummy inside)
- paint
- circular saw and router (my Dad used these for the sarcophagus)

HOW DOES IT REFLECT ON ANCIENT EGYPT

I based the artwork on on Tutankhamun's sarcophagus, and my favourite Avenger, Iron Man in the scene of Endgame where he snaps Thanos and his army out of existence. It reflects the patterns and jewellery of an Egyptian sarcophagus. It also reflects on how Iron man sacrificed himself for all humananinity.
